Aging Society: Challenges and Opportunities

We are facing an unprecedented demographic shift: by 2065, one-third of Italy's population will be over 65. This workshop explores multidisciplinary solutions for elder care, from demographics to law, medicine, sociology, and technology, aiming for a sustainable and balanced future.

Age-It: A Holistic Approach to Aging

Age-It tackles aging challenges through an integrated, multidisciplinary approach, fostering collaboration across research, healthcare, and social sectors. Spoke 5 focuses on a person-centered care system, blending medical, institutional, and technological solutions, to enhance long-term care and optimize resource distribution.
